HIDE MODULES

To hide a module already visible in the Value Line Report, place your cursor over the upper right corner of the module until **Hide** appears along with module sizing options. Click Hide to remove the module from the report.

Open the slide-out menu and select the module under **Hidden** to make it reappear. The module will be at the bottom of the report.

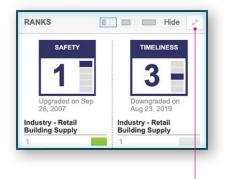

DRAG AND DROP

To move a module within the Value Line Report, click and hold the right corner of the module with the arrows and drag the module to your desired position.

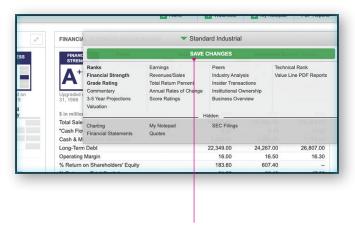

SAVE A TEMPLATE

Once you've selected which module(s) to display, open the **slide-out menu**, located at the right edge of the Value Line report. Click the **Save Changes** button, then enter a name for your custom template.

To use a saved template, choose the report you wish to read and place your cursor over the slide-out menu and click **Standard Industrial** and select the desired template listed in **My Templates**.

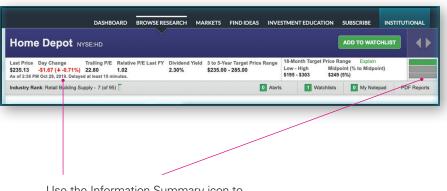

Hover the display icon on the module to show view options.

Use the Save Changes button to save your custom template.

THE SECURITY BANNERS/ ALERTS BAR

On the upper right side of the Value Line Report you will see the Information Summary icon, consisting of two gray horizontal bars and one blue or green bar. Clicking on each bar will display different sets of information about the stock. For example, clicking the top bar displays the 52-week high and low prices, earnings per share estimates, and 3to 5-year projections, etc. Clicking the bottom gray bar gives you the stock's alpha and beta. (Alpha is a measure of how much a stock price will rise relative to the market. Beta is a measure of the volatility of a stock compared to the market, 1 being the market. The S&P 500 Index is assigned a Beta of 1, so, a stock that has a beta of more than 1 is more volatile than the S&P 500 Index which is usually referred to as "the market"). This bar also shows the upcoming ex-date for stocks that pay dividends, etc.

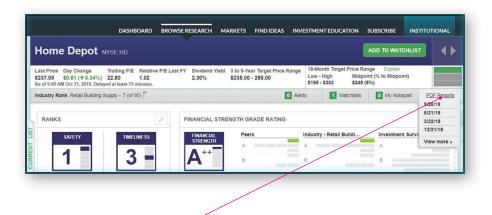

Use the Information Summary icon to scroll through the stock information displayed at the top of the Value Line Report page.
